FAUCETS TECHNOLOGY

The ceramic disc fitting are manufactured using top quality materials. All the technological processed used in the production have been specially designed to ensure that the product has a smooth operations a long service life at both high and low temperatures. To improve the quality of the product. The critical components are forged to improve the quality of the product.

YOU IMAGINE - WE DELIVER

WHERE DESIGN AND TECHNOLOGY MEET. THAT IS.....REVORA

"Made in **REVORA**" signifies that the entire production process, from casting the raw material to electroplating and applying the finishing touches, is completely done by highly qualified personnel with modern equipment. The production processes vary between careful handcrafting and extremely accurate computer-controlled ones. The final judgement on whether the finishing accessories correspond to our level of excellence is still made by sincere individuals with vast expertise.
